Dear Brazos G Regional Water Planning Group Members:

On behalf of Williamson County, we ask that you recognize that the Williamson County population and employment forecasts have historically underestimated the values for Williamson County. The resulting water demand calculated using these deficient numbers is therefore also low.

As a result, we are now facing potential water shortages. We are especially concerned regarding the ability of our small cities to meet the demands being placed upon them. Please recognize the immediacy of the issue and take the necessary steps to preclude a water shortage from occurring.

Thank you for this opportunity to comment.

Sincerely,

Robert B. Daigh P.E.
